253.111 Notice to ~~board of county and municipality commissioners~~ before sale.—The board of trustees of the internal improvement trust fund of the state shall not sell or convey any land to which they hold title unless and until they shall afford an opportunity to the county in which such land is situated, and, if the land is located within or contiguous to the boundaries of a municipality, to such municipality, to receive such land for public purposes on the following terms and conditions:

(1) If an application is filed with the board requesting that they sell certain land to which they hold title and the board shall decide to sell such land or if the board shall, without such application, decide to sell such land the board shall, before consideration of any private offers, notify the *local governmental unit board of county commissioners of the county* in which such land is situated that such land is available to such *local governmental unit county*. Such notification shall be given by registered mail, return receipt requested.

(2) The *local governmental unit board of county commissioners of the county* in which such land is situated shall, within ninety days after receipt of such notification from the board, determine by resolution whether or not it proposes to devote such land to public parks, public beaches, public fishing piers, public boat ramps, public dockage facilities or other public outdoor recreational purposes, hereinafter referred to generally as public outdoor recreational purposes.

(3) If the *local governmental unit board of county commissioners* shall determine that it proposes to devote such land in perpetuity to public outdoor recreational purposes it shall adopt a resolution specifying such determination and setting forth:

(a) The specific public outdoor recreational purpose or purposes to which it proposes to devote such land;

(b) A tentative plan of development for such land;

A certified copy of such resolution shall be furnished to the board within such ninety day period by registered mail, return receipt requested.

(4) If the *local governmental unit board of county commissioners* determines that it does not propose to devote such land to public outdoor recreational purposes it shall notify the board of such determination by sending, immediately after adoption, a certified copy of the resolution so specifying to the board by registered mail, return receipt requested. If the *local governmental unit board of county commissioners* shall fail to act as provided in subsection (3) within the ninety day period, such failure shall constitute a determination that it does not propose to devote such land to public recreational purposes.

(5) If the board receives within the ninety day period the certified copy of the resolution provided in subsection (3), the board shall forthwith convey to the *local governmental unit county* such land upon such terms and conditions and at such price as the board shall determine (but in no case at a price higher than such property would be disposed of under any other provision of this chapter), but subject to a reverter to the board if such land shall not be devoted to the public outdoor recreational purpose or purposes specified in such resolution in substantial accordance with the plan of development and the time schedule for development set forth in such resolution, and shall not be devoted in perpetuity to some public purpose.

(6)(a) If the *local governmental unit board of county commissioners* shall determine that it does not propose to devote the land to public outdoor recreational purposes the board may dispose of the property as otherwise provided in this chapter.

(b) It shall not be a violation of the reverter clause of any deed from the board to a *local governmental unit county* under this section if the *local governmental unit county* shall in fact use the property for a public outdoor recreational purpose other than that specified in the resolution provided in subsection (3) or not in substantial accordance with the plan of development and time schedule set forth in such resolution if the board shall by appropriate resolution approve such change or such failure to act in substantial accordance with the plan of development or time schedule.

(c) Nothing in this section shall restrict any right otherwise granted to the board by this chapter to convey land to which they hold title to the state or any department, office, authority,

board, bureau, commission, institution, court, tribunal, agency or other instrumentality of or under the state. The word land as used in this act means all lands vested in the board of trustees of the internal improvement trust fund.

(7) If any riparian owner shall exist with respect to any land to be sold by the board, such riparian owner shall have a right to secure such land, which right shall be prior in interest to the right in the county created by this section, provided that such riparian owner shall be required to pay for such land upon such prices, terms and conditions as determined by the trustees. Such riparian owner may waive this prior right in which case this section shall apply.

On motion by Senator Poston, by two-thirds vote, HB 1015 as amended was read the third time by title.

Senator Brantley raised a point of order that HB 1015 as amended affected finance and taxation and should be referred to the Committee on Ways and Means under Rule 4.6.

The President ruled that inasmuch as the State is required by the present law to issue a new certificate, that this legislation simply states that the person who has lost his driver's license and asks that the state carry out an extra service because of an act on his part, that the State is entitled to recover the cost. If the increase applied to everyone getting a license it would be a different matter. The President therefore ruled the point not well taken.

HB 1015 as amended passed and was certified to the House. The vote was:

Amendment 1

On pages 2—8, line 5, strike Everything after enacting clause.

and insert the following: Section 1. Chapter 458. Florida Statutes, is amended by adding a new section to read:

458. Physician's Assistants.—

(1) Legislative intent.—In its concern with the growing shortage and geographic maldistribution of health care services in Florida, the legislature intends to establish in this section a framework for development of a new category of health manpower—the physician's assistant.

The purpose of this section is to encourage the more effective utilization of the skills of physicians by enabling them to delegate health care tasks to qualified physician's assistants where such delegation is consistent with the patient's health and welfare.

In order that maximum skills may be obtained within a minimum time period of education, the physician's assistant shall be specialized to the extent that he can operate efficiently and effectively in the specialty areas in which he has been trained or is experienced.

This section is established to encourage the utilization of physician's assistants by physicians and to allow for innovative development of programs for the education of physician's assistants.

(2) Definitions.—as used in this section:

(a) "Board" means the Board of Medical Examiners of the state of Florida.

(b) "Approved program" means a program for the education of physician's assistants which has been formally approved by the board.

(c) "Trainee" means a person who is currently enrolled in an approved program.

(d) "Physician's assistant" means a person who is a graduate of an approved program or its equivalent and is approved by the board to perform medical services under the supervision of a physician or group of physicians approved by the board to supervise such assistant.

(3) Notwithstanding any other provision of law, a physician's assistant may perform medical services when such services are rendered under the supervision of a licensed physician or group of physicians approved by the board, in the specialty area or areas for which the physician's assistant is trained or experienced.

(4) Notwithstanding any other provision of law, a trainee may perform medical services when such services are rendered within the scope of an approved program.

(5)(a) The board shall issue certificates of approval for programs for the education and training of physician's assistants which meet board standards. Such educational programs shall include provision for continuing educational requirements established by the board for the physician's assistants. Any basic program curricula approved by the board shall cover a period of no more than two years.

(b) In developing criteria for program approval the board shall give consideration to, and encourage, the utilization of equivalency and proficiency testing and other mechanisms whereby full credit is given to trainees for past education and experience in health fields.

(c) The board shall create groups of speciality classifications of training for physician's assistants. These classifica-

tions will reflect the training and experience of the physician's assistant. The physician's assistant may receive training in one or more such classifications which shall be shown on the certificate issued.

(d) The board shall adopt and publish standards to insure that such programs operate in a manner which does not endanger the health and welfare of the patients who receive services within the scope of the program. The board shall review the quality of the curriculum, faculty, and facilities of such programs, issue certificates of approval, and take whatever other action is necessary to determine that the purposes of this section are being met.

(6) The board shall formulate guidelines for the consideration of applications by a licensed physician or physicians to supervise physician's assistants. Each application made by a physician or physicians shall include all of the following:

(a) The qualifications, including related experience of the physician's assistant intended to be employed.

(b) The professional background and specialty of the physician or physicians.

(c) A description by the physician of his, or physicians of their, practice, and the way in which the assistant or assistants are to be utilized.

The board shall approve an application by a licensed physician or physicians to supervise a physician's assistant where the board is satisfied that the proposed assistant is a graduate of an approved program or its equivalent, is fully qualified by reason of experience and education to perform medical services under the responsible supervision of a licensed physician, and the public will be adequately protected by the arrangement proposed in the application.

(d) The Board shall certify no more than one (1) physician's assistant for any physician practicing alone; two (2) physician's assistants for two (2) physicians practicing together; a ratio of two (2) physician's assistants to three (3) physicians in any group.

(7) Any person other than one who has been approved by the board who holds himself out as a "physician's assistant", or who uses any other term indicating or implying that he is a physician's assistant, is guilty of a misdemeanor.

(8) The board shall report to the legislature no later than March 15, 1973, as to:

(a) The number and types of programs which have been approved and a description of each.

(b) The number of physician's assistants who have been approved for supervision under this section.

(c) An evaluation of the programs and the acceptance of them by the community.

(d) Background concerning the numbers of physicians supervising assistants, their specialties, and the counties in which they practice.

(e) The scope of practice of approved physician's assistants.

(f) Such other information as would be useful to the legislature in evaluating the physician's assistant program for either expanding or discontinuing the program.

(9) The board may revoke the certificate of approval to supervise a physician's assistant held by any physician when, in its judgement, the intent of this act is not being carried out.

(10) The board shall adopt rules and regulations necessary for the administration of the physician's assistant program, and

such rules and regulations shall be adopted in accordance with the administrative procedure act, chapter 120, Florida Statutes. The board shall adopt such rules and regulations as are necessary to insure both the continued competency of physician's assistants and the proper utilization of them by physicians or groups of physicians. Rules and regulations shall be adopted to assure that every physician's assistant performs his services under the responsible supervision and control of a physician or group of physicians.

(11) In developing criteria for program approval and approval of applications to utilize physician's assistants and in preparing its report to the legislature, the board shall consult with and seek the advice of professional medical organizations and specialty societies. The report shall contain the doctor-patient ratio as related to the several counties and the counties such physician's assistants are being utilized.

(12) (a) A fee of ten dollars (\$10) shall be charged for each application to the board by a physician or physicians to supervise physician's assistants.

(b) A fee of twenty-five dollars (\$25) shall be charged for each approval granted by the board. Approval shall be limited to one year.

(c) The board shall renew approval upon application for such renewal, and a fee of twenty-five dollars (\$25) shall be paid for such renewal.

(d) A fee of fifty dollars (\$50) shall be charged to each applicant seeking program approval by the board.

(e) A fee of five hundred dollars (\$500) shall be charged to each approved program located in Florida.

(13) Nothing in this act shall be construed to eliminate or supercede existing laws relating to other paramedical professions or services. It is the intent of this act to supplement and be in addition to all such existing programs relating to the certification and practice of paramedical professions, as may be authorized by law.

(14) All physicians or physician groups utilizing physician's assistants shall be liable for any acts or omissions of physician's assistants while acting under their supervision and control.

Section 2. Effective date.—This act shall take effect July 1, 1971.
